Steps for Innovators

From Kingdom Innovators (Sabbath Worship, Mentor's Menu)

December 17, 2022

1. Believe nothing is impossible.
2. Believe there is more than one way to solve a problem.
3. Believe for new ways to solve old problems.
4. Believe to never surrender to limitations.
5. Never be intimidated by failure. Do not be afraid of failure.
6. Believe to try anything once. People who do not venture never have adventure.
7. Believe to challenge your own success. You do not grow where you have already been.
8. Believe to think of what has never been.
9. Believe to challenge traditions before you do it.
10. Believe to engage the unknown.
